

2008-2009 MARCHING BAND UNIFORM INFORMATION SHEET

***IMPORTANT: THE LENGTH OF THE PANTS!!**

You must be sure that the length of your uniform pants is at the proper height. As you are standing with your marching band shoes on, **the pant should be no lower than the first snap from the top of the spats!**

You can adjust the length of your pants by hemming the pants with a light stitch of thread. Remember that another band person will be wearing these pants in the future, so **please do not cut the fabric!**

***Please take proper care of your band uniform.** Make sure that the uniform is properly hung on a sturdy hanger. Also, make sure that the creases of the pants are folded together.

*Wash your spats and gloves as needed.

*Do **NOT** dry them on a hot dry setting.

*Be sure to have **black, plain**, polishable shoes with a heel.

*No athletic shoes!

*You will need to have **black** socks. Do **not** wear white socks!

*Suspenders are required. This is the best way to keep your uniform pants up and at the proper length. Any clip on style will do.

*Dark/Black t-shirt worn under the band jacket.

*Hair under the hat.
